Project Design Phase-I: Solution Architecture

Date	28 October 2026
Team ID	N/A (Individual Project - Shriyanshu Jain)
Project Name	Global Electric Vehicle (EV) Market Performance & Insights
Maximum Marks	4 Marks

EV Market Analysis Solution Architecture (Flow Diagram)

Component Details

Component Name	Description / Role in Architecture	Technology Used
Data Source (Raw Data)	Provides the foundational dataset containing over 100k records of global EV sales, categories, pricing, and battery specifications.	CSV (Comma Separated Values)

Data Processing & Engine	Responsible for connecting the raw data, casting accurate data types (like geographic roles for countries), and handling queries.	Tableau Data Engine / Python (Pandas) for pre-processing
Data Visualization & Analytics	The core layer where the raw data is transformed into 9 analytical views, mapping correlations like capacity vs. range and market share.	Tableau Public / Tableau Desktop Worksheets
Front-End UI / Presentation	The interactive user interface that consolidates visuals into a dashboard and a 4-point storyboard tailored for Emily, David, and Sarah.	Tableau Dashboards & Storyboard
