Demonstration of Proposed Features

Date	28 October 2026
Team ID	N/A (Individual Project - Shriyanshu Jain)
Project Name	Global Electric Vehicle (EV) Market Performance & Insights
Maximum Marks	4 Marks

Feature Demonstration Details

S.No	Proposed Feature	Demonstration in Final Dashboard / Story
1	9-Visual Interactive Dashboard	Consolidated the top core visuals (Sales Bar Chart, Geo Map, Bubble Chart, and Pie Chart) into a single, clean executive view.
2	4-Point Executive Storyboard	Created a guided presentation narrative with tabs designated for Executive Summary, Sales Strategy (Emily), Competitive Landscape (David), and Tech Trends (Sarah).
3	Persona-Specific Analytics	Incorporated scatter plots (Capacity vs. Range) tailored specifically for technical R&D analysis, and market share bubble charts for BI mapping.
4	Interactive Global Filtering	Demonstrated through Tableau Action Filters where clicking a specific vehicle segment (e.g., SUV) instantly filters the geographic map and battery pie chart.
5	Advanced Custom Tooltips	Hovering over geographic regions or scatter plot points dynamically reveals hidden, granular data (precise sales units, average customer ratings) without cluttering the UI.
